BBD-6000

BBD-5000

**Industrial Carts, Ladders, Stairways and Mezzanines.
September 20, 2009**

As Benson Metals completes thirty years in business and enters its thirty-first year, we consistently have proven our dedication to you, our customers, with our line of products. This is a direct result of your continued support.

Our updated catalog and web site demonstrate our responsibility to you and endeavors to improve and maintain your confidence and trust in Benson Metals.

The engineering of every product, item and part shown in our catalog and on our web site, enables you to place your order by phone, mail, or email – regardless of quantity – and be assured that your order has been fulfilled with satisfaction.

Benson Metals takes pride in its ability to design, custom – engineer, problem solve, manufacture, build, package and ship your product with a commitment of satisfaction to you.

We strive to do our best to serve and provide you with a durable, pre-assembled, quality product every time. We can help you with these products and customized items that you may need to service your customer.

Sincerely,

John D. Benson
President

WARRANTY

This warranty is in lieu of all other warranties, express or implied. Any warranty implied by law, including warranties of merchantability or fitness for a particular purpose, are hereby disclaimed and excluded from this contract. No representative or person is authorized to give any other warranty or to assume for Benson Metals any other liability in connection with products sold by Benson Metals. Benson Metals will not be liable for any incidental or consequential damage.

Miscellaneous:

Benson Metals is not responsible for non-delivery or delay in delivery due to delays, damage, or losses resulting from strikes, riots, fires, floods, inability to secure materials or other accidents or occurrences beyond our control.

Paint:

All products will be painted **BENSON BLUE** or as shown in the catalog with a water base acrylic enamel, unless otherwise specified.

Shop Drawings:

All custom projects other than the Benson standard items shown in our catalog require a shop drawing. No work can proceed on any custom items until a shop drawing has been done and signed by the customer approving the design, sizes, dimension and color.

Structural Calculations:

Where structural calculations are required such as mezzanines, they will be furnished at an additional cost to the customer. Our structural engineer will certify and sign his structural calculations based on our design, but he does not sign the drawings. If the customer requires that the structural engineer sign the drawing, another additional cost will be required for the structural engineer to produce the drawings under his direction and supervision.

Responsibility:

This book and any drawings that have been made at Benson Metal's expense for your and our use and is the sole property of Benson Metals and shall be used only in connection with estimates and work of Benson Metals. We assume no responsibility for errors through the use of this book or any drawings by other parties.

Pricing Notes

All prices are F.O.B factory

Identify your choice of shipment:

Customer pick up.
3rd party billing
Collect

If you have a selected truck line let us know.

Refer to price list 103. There is a minimum charge of \$100.00 list.

For galvanized parts there is a minimum charge of \$425.00 list. You will need at least 1000 lbs. of material to meet this charge.

For boxing and crating of large carts and large orders, we add \$150.00 to \$200.00 for each box or skid.

Pricing in our catalog is for steel. We can build most of our items in aluminum or stainless steel. Ask for pricing and availability.

BBD-6000 BENSON BIN DUMPER

“Dumps a Square Box”

BBD-6000 DIMENSIONAL VIEW

U.S. Patent Number 7,597,526

The BBD-6000 is designed for easy mounting and removal. It can handle a variety of bin sizes. The bin depth should be 42" and the retainer arms adjust from 28" to 41" in height. This hydraulic bin dumper accommodates steel or wood boxes used in the agricultural markets such as grapes, potatoes and oranges or industrial sector for steel scrap. For your purchase of the BBD-6000 Bin Dumper you will need to purchase and install the hydraulic hose reel and hand lever control at your local forklift dealer. The hydraulic disconnect couplers for the hose reel are included with your purchase of the BBD-6000 Bin Dumper.

BBD-6000 List Price \$5400.00

wt 458 LBS

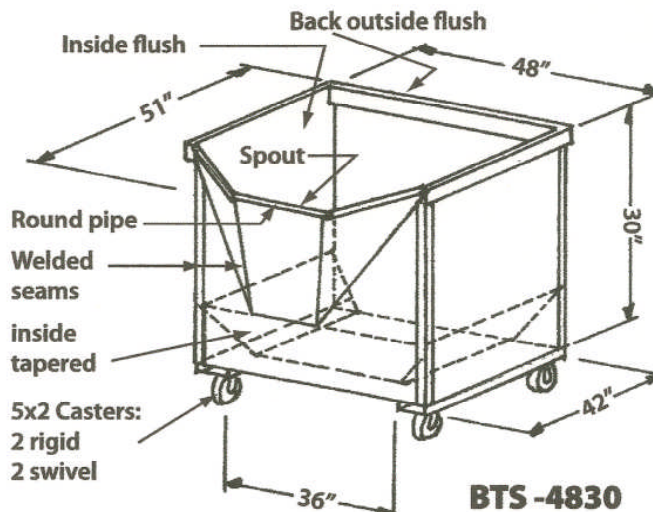

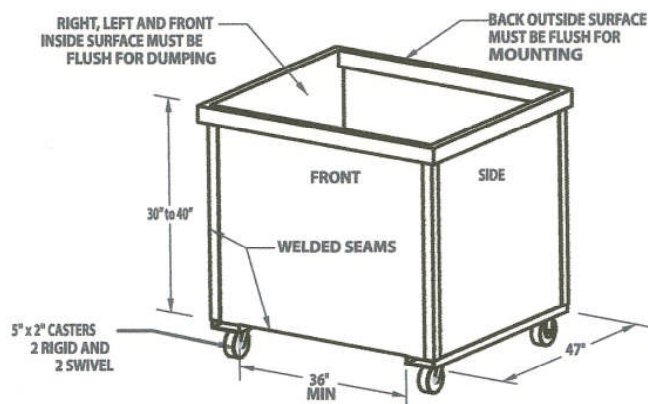

Hydraulic Disconnect Inc.

The hydraulic hose reel, hand lever control and installation are not included in our pricing.

Model AWS-3020

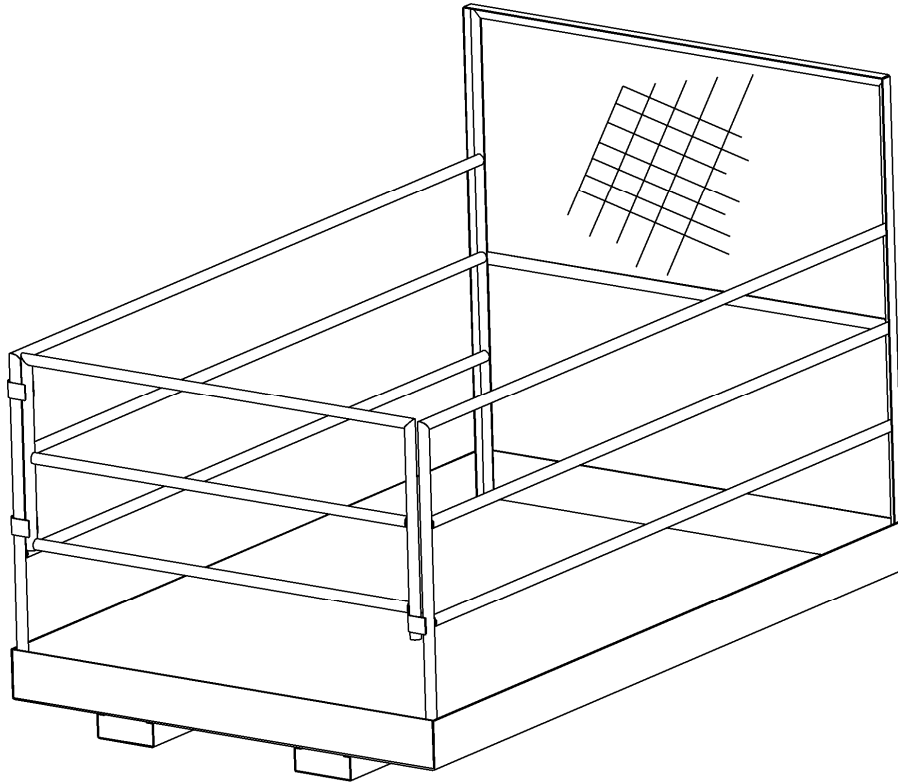

Elevate your personnel and pallets to overhead racks and shelving for safe and convenient access. Guardrails are 42" high and constructed of 1" pipe. A 60" high mesh safety screen on the fork truck side protects employees. 4" high toe guard surrounds the platform (30"W x 20"D) mounted on 8" x 3" x 3/16" fork pockets 60" long. Double safety chains in the front prevent employees from falling out. Picker is secured to the fork truck with a chain and hook.

Locker Channel Base

Model BLB – Benson Locker Base

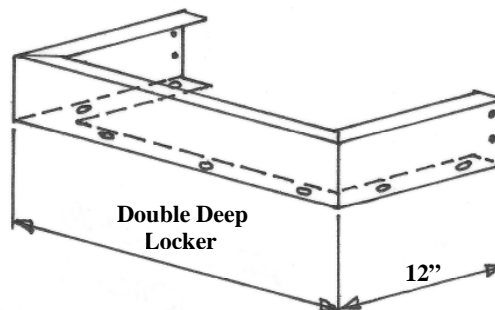

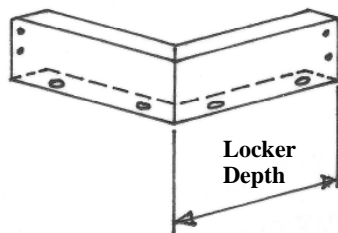

Units are made in single and double locker ends for matching to the run base section. Each single end section is $\frac{1}{2}$ " smaller than your locker depth and the double end is 1" smaller. These units allow you to layout your lockers on the floor prior to installing the lockers. Using this base eliminates the need for angle support legs on the back of your locker. Units are 16 gauge formed with No Paint. Ask for paint pricing to match your locker color. We paint with enamel; you may want electro-static or powder coat. Black is a good color for these, ask for quantity pricing.

See page 30 for Pricing

Painted Benson Blue

Benson Class II Bīk Rak

Model - BBR

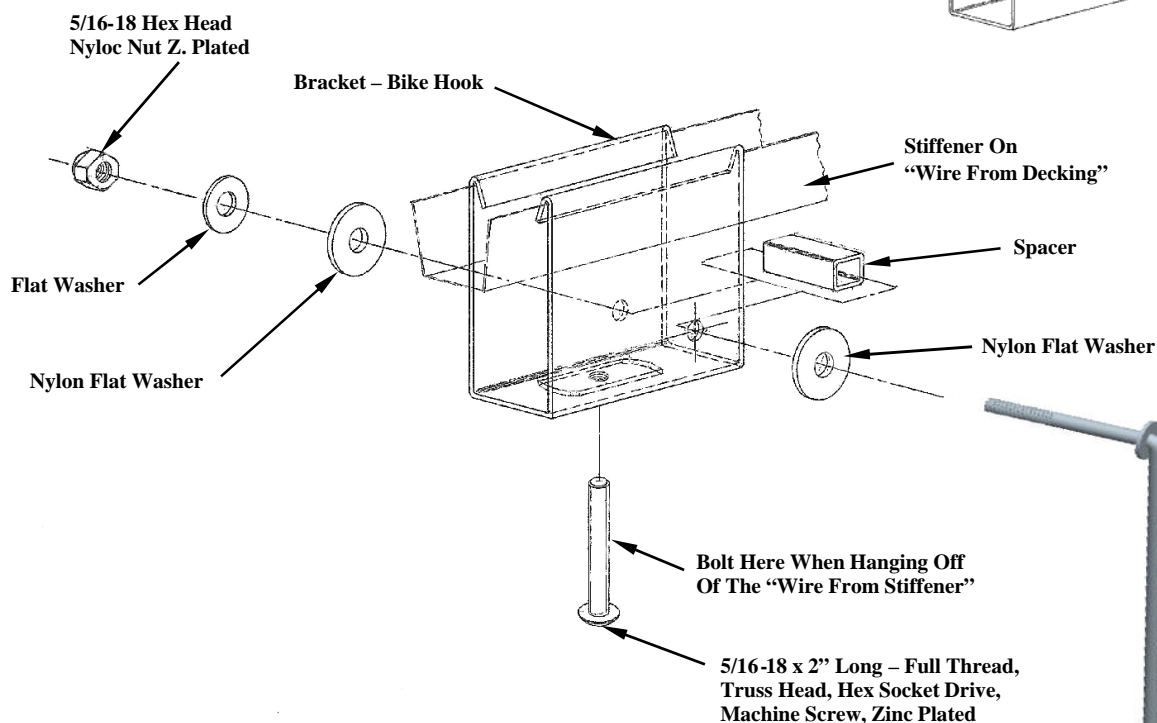

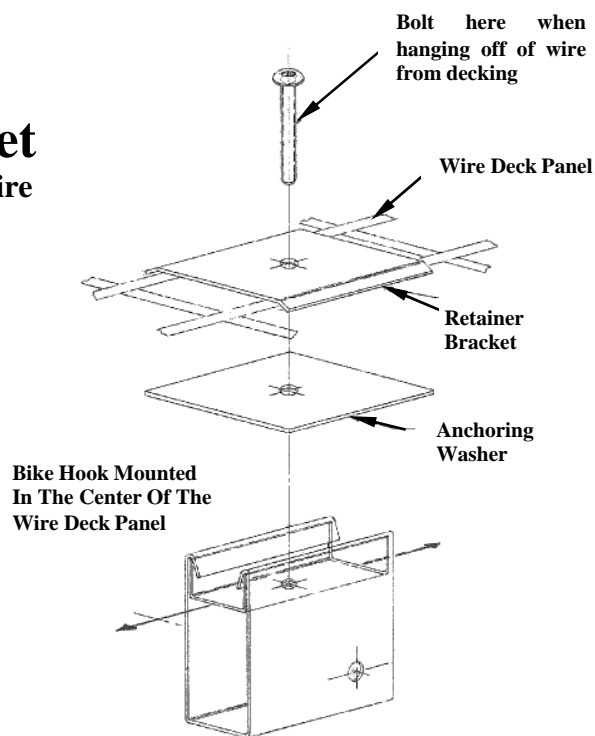

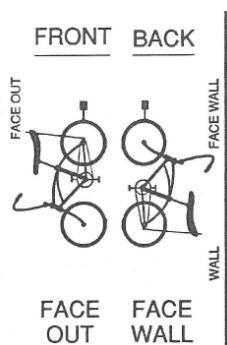

- 2 unique designs
- Standard Bīk BBR-0002
22" high x 23" wide top cross arm
- Mountain Bīk BBR-0003
22" high x 23" wide top cross arm
- The yoke of the bike is set into a cushioned channel receiver and locked into place with a slide bolt. To further guarantee the bikes security, a vinyl coated lock cable with looped ends is attached to the under side of the cross arm and is wrapped though each bike wheel and around the yoke frame. The looped ends of the cable then match up with the side bolt hole matching a welded-on lock plate. The biker can then place their bike paddle lock through the cable loops and slide bolt holes to permanently secure the bike.
- The slide bolt is made of stainless steel to prevent rusting and corroding.
- Bīk Rak is designed to hold 2 bikes placed opposite directions.
- Bīk Rak is set into place and anchor bolted to the concrete with 1/4" x 4" security expansion anchor bolts.
- Units are painted with a high gloss powder coat, baked on finish.
- To additionally secure your employee's and customer's bikes, we encourage the use of the Benson Class II Bīk Rak.

Model #	Class II Bīk Rak	List Price Each
BBR-0002	Standard Bike	308.30
BBR-0003	Mountain Bike	314.90

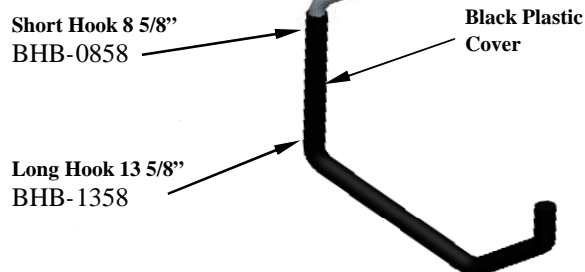

Retractable Bike Hook Bracket

Bracket Mounts To Under Side of Pallet Rack Wire Deck Panels

Mezzanine Tip-Up Gate

Model TUG

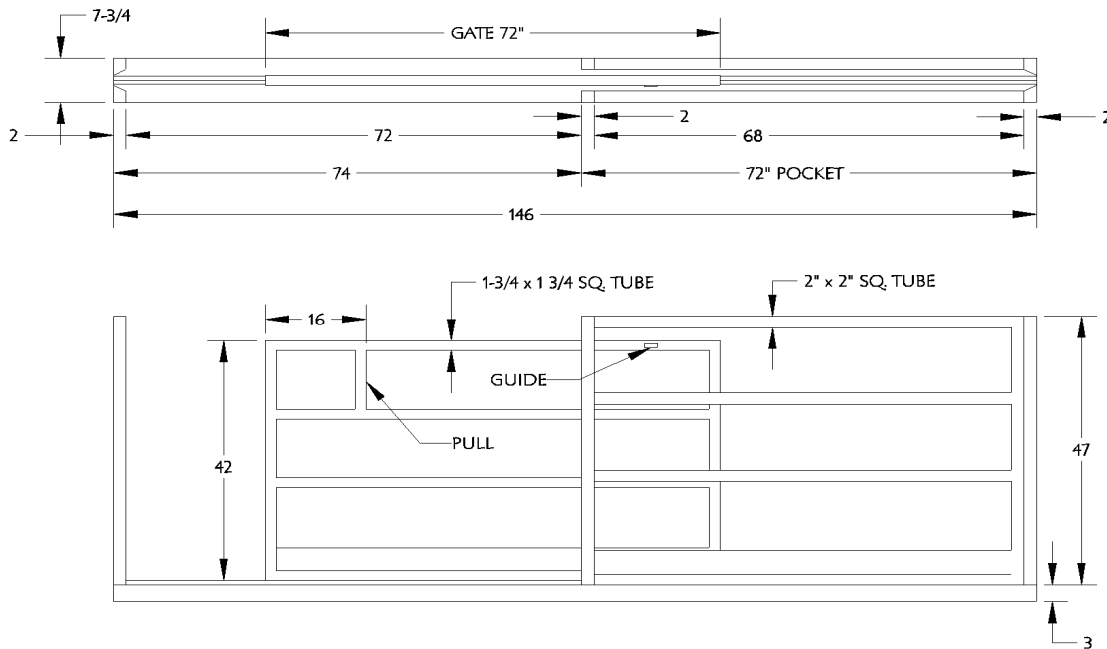

Gate allows for safe bi-level loading and unloading of pallets. In the loading position, one side of the gate pivots open to accommodate up to 2 pallets, 2 x 48" (this will depend on the gate width that you purchase). Usable depth is 67 1/2". In the unloading position, the other side pivots to create 36" hand rails on each side of the pallet and a railing along each edge of the mezzanine.

Gate and side rails are made of 1 1/2"sq. 14ga steel tubing with yellow enamel finish. Gate units are shipped knock down with horizontal rails to be field assembled with stand off brackets. Side rails have 4" x 4" mounting plates with 1/2" holes for mounting to the mezzanine. Ask for special sizes and conditions.

Model #	Description	Weight	List Price
TUG-7204	48" OA width	150 lbs.	\$ 875.00
TUG-7205	60" " "	159 lbs.	\$ 890.00
TUG-7206	72" " "	168 lbs.	\$ 905.00
TUG-7207	84" " "	177 lbs.	\$ 921.00
TUG-7208	96" " "	186 lbs.	\$ 936.00

Mezzanine Sliding Gate

Model SLG

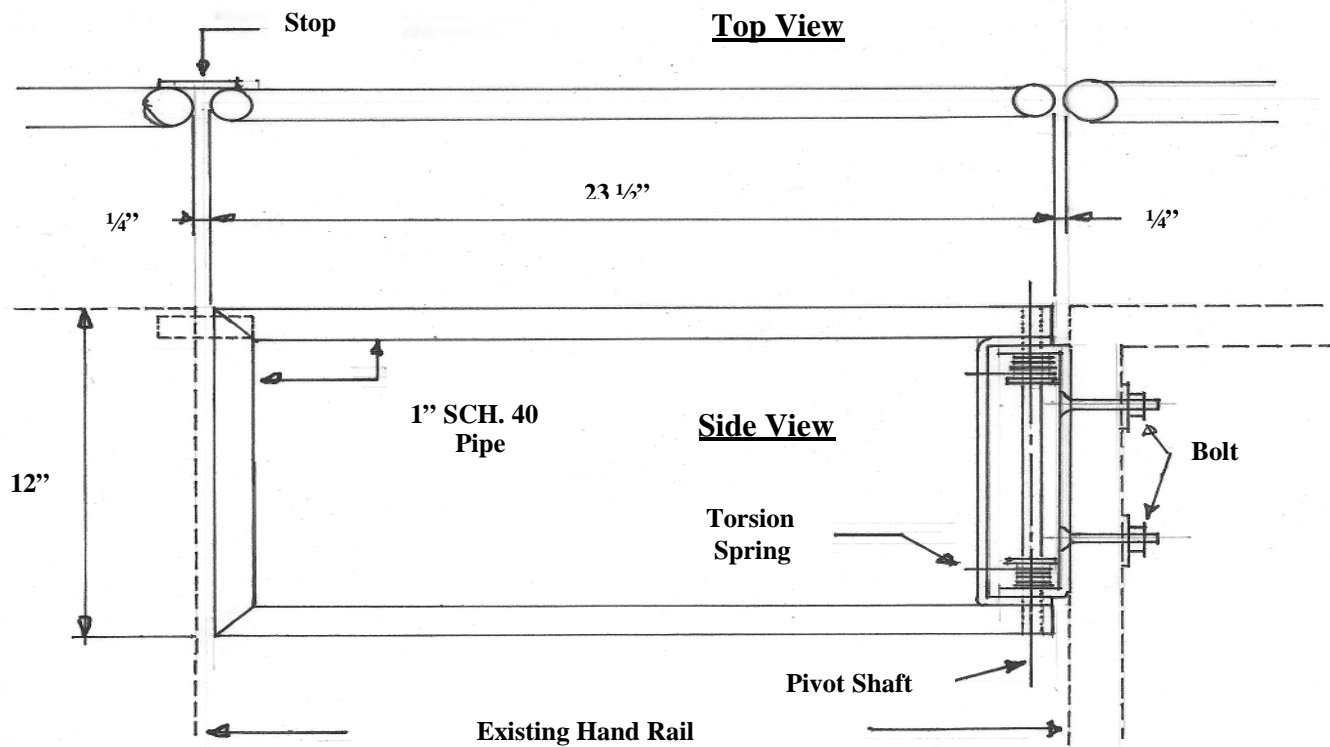

Sliding Gate unit is 12" larger than the gate opening. It rolls on two 4" v-grooved wheels on a 1" x 1" angle track and it is held in alignment with two guide rollers in the pocket opening.

- ◆ Gate is 1 3/4" sq. tubing and pocket frame is 2" sq. tubing.
- ◆ Base is 3/16" thick formed angle, 3" high x 7 3/4" wide and sets on the mezzanine roof deck. 3/4" space channels mount on top to flush with plywood deck surface on mezzanine. Allow pallets to slide smoothly onto the deck.

Part #	Gate Opening	Weight	List Price
SLG-7260	60"	437 lbs.	\$2068.00
SLG-7272	72"	473 lbs	\$2230.00
SLG-7284	84"	509 lbs	\$2390.00
SLG-7296	96"	545 lbs	\$2560.00
SLG-7209	108"	581 lbs	\$2740.00
SLG-7210	120"	618 lbs	\$2915.00
SLG-7212	144"	690 lbs	\$3154.00

Safety Gate

Model SWG

These units are used primarily at ladders and stairway openings. Gates are made of 1" schedule 40 pipe and fits between the existing hand rails. You will need to make a field measurement and the gate will be built to fit between the existing rails. One torsion spring is used on the smaller units and two torsion springs on the larger units.

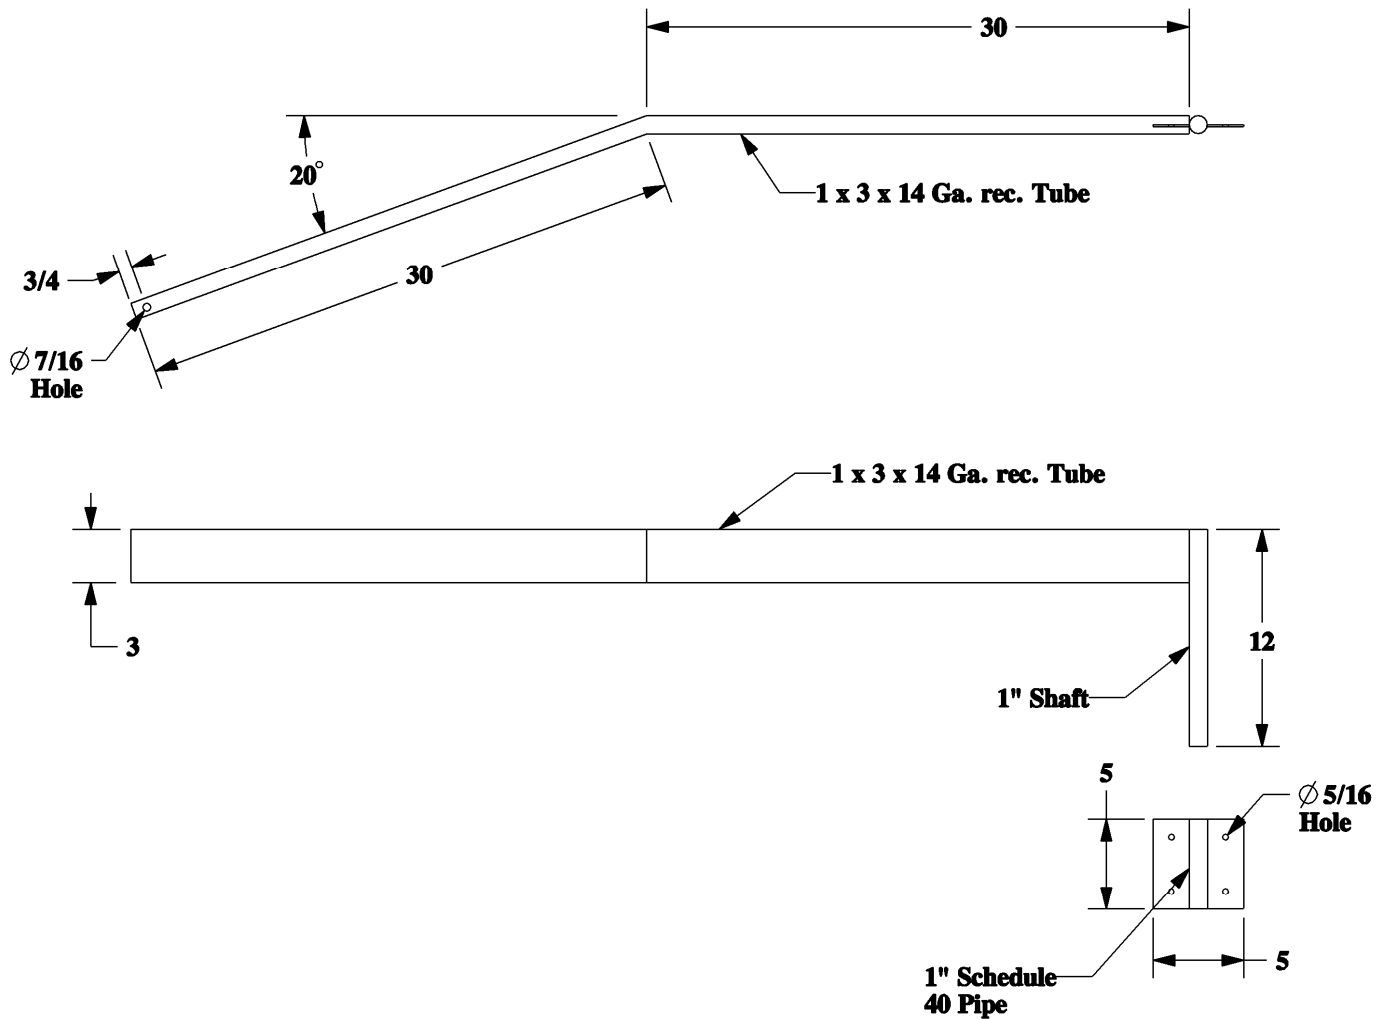

Painted Yellow Enamel.

Part #	Weight	List Price
SWG-1224	12 lbs.	\$294.00
SWG-1230	14 lbs.	\$298.00
SWG-1236	16 lbs.	\$302.00
